DETAILED ACTION

Response to Amendment

This is a response to the amendment, paper No. 11, filed 12/30/03. Claim 1 has amended. Claims 10-12 and 17 have been canceled. Claims 1-11 and 13-16 are pending and considered before the examiner.

Please note any ground of rejection(s) that has not been repeated is removed. Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

- 1. Claims 1-9 and 13-15 are still rejected under 35 U.S.C. 112, first paragraph on the same ground as stated in the previous Office Action, because the specification, while being enabling for inducing a tubulogenesis of a renal metanephric messanchyme by co-culturing a metanephric messanchyme cells with another kind of cells that express wnt-1 polypeptide in an in vitro setting system, does not reasonably provide enablement for having a method of treating kidney disorder, renal failure, renal carcinoma, polycystic kidney disease, chronic obstructive uropathy as well as a HIV-1 induced nephropathy by directly administering any or all Wnt protein except Wnt-11 into a mammal of an in vivo setting system. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the invention commensurate in scope with these claims.
- 2. Because Applicants failed to response to this rejection made in the previous Office Action, the rejection is still maintained and then made Final.

Application/Control Number: 09/937,735

Art Unit: 1648

Claim Rejections - 35 USC § 102

- 3. Claims 1 and 16 are still rejected under 35 U.S.C. 102(b) as being anticipated by Humes et al. (US patent No. 5,686,289A) or under 35 U.S.C. 102(e) Humes et al. (US Patent No. 6,060,270A).
- 4. In response to the previous Office Action, Applicants amended claim 1 and submitted that the rejection should be withdrawn because the method is now read on patenterally administration.
- 5. Applicants' amendment has been fully considered; however, it is not persuasive because broad scope of the claim 1 still includes the method of administering the polypeptide by ex vivo since claim 16, which depends on claim 1, is still read on the method of administration by ex vivo. The reference by Humes et al. still teaches every limitations of claimed method, and it still anticipates the claims. Therefore, the rejection is maintained.

New Ground Rejection:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 16 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In the instant case, claim is amended to be a method administering the claimed Wnt polypeptide parenteraly; but claim 16 is still read on the method is done by an ex vivo administration, which is contradictory to the independent claim 1. Therefore, it is considered indefinite.

Conclusion

1. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Application/Control Number: 09/937,735

Art Unit: 1648

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao Qun Li whose telephone number is 571-272-0904. The examiner can normally be reached on 7:00 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 571-272-1600.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
